DEROX BAT 84

Extra-strength fast acting cleaner, for materials with high silica content.

I Applications:

This product is designed for scouring bricks, sandstone, glazed stone finishes, vitreous paste, all types of concrete, exposed aggregates.

II Product Advantages:

- Very fast
- Powerful

III Physicochemical Properties:

- Water based viscous liquid
- White to yellowish liquid
- Density: 1.20 g/cm³ at 20°C
- PH: 1
- Not frost resistant, but effects reversible
- Flash Point: None

IV Instructions for use:

1. Dilution: Ready to use.
2. Tools: Roller, brush (all types).
3. Method: Mix the product well before application. Apply to the surface and leave to act. Rinse from the base upwards with water under pressure. Renew the operation as necessary
4. Application Time: From ¼ hour to 1 hour maximum.
5. Application Temperature: From 5 to 50°C. Efficacy is reduced at extreme temperatures.
6. Application Rate: From 150 to 250 g/m² according to surface porosity.

V Precautions for Safe Handling & Use:

1. Protection of surfaces: Dulls glass, mirrors, affects stone, marble, aluminium, zinc, galvanized materials, steel. They must therefore be protected before the product is applied.
2. Protection of personnel: This product contains hydrofluoric acid. It is highly corrosive to the skin and can cause serious burns. Therefore, boots, eye protection, latex gloves, and suitable protective clothing must be worn. In the case of contact, wash with water immediately and seek medical attention.

VI Cleaning of tools:

Clean tools in water immediately after use.

VII Packaging, palletising, storage:

- 25 kg: pallet de 24 X 25 kg
- 6 kg: carton of 4 X 6 kg

Important: The contents of this documentation result from our experience of the product. We cannot be held responsible for its use in each individual case. It is essential to test areas to be treated beforehand.
